

TALENTSY

SHOW ME YOUR TECH

FACTS ABOUT THE COMPANY #1

10+ YEARS

AT THE SOFTWARE DEVELOPMENT MARKET

Successful experience in the development of any complexity software starting from mobile applications and ending with high-load corporate systems.

2,5K

OF CORPORATE USERS

One of our specializations is automation of big businesses.

9

DOMAINS

We are experienced in software development in such business spheres as commerce, finances and banking, logistics and transport, government and tourism, etc.

50K+

CHOURS OF SOFTWARE DEVELOPMENT

That is the exact time we spent on our largest project development.

FACTS ABOUT THE COMPANY #2

50

SUCCESSFUL PROJECTS

This year we are going to celebrate our 50 th project completion.

24/7

SERVICE

Our managers and support teams can be contacted any time.

150M

RECORDS IN DATABASE

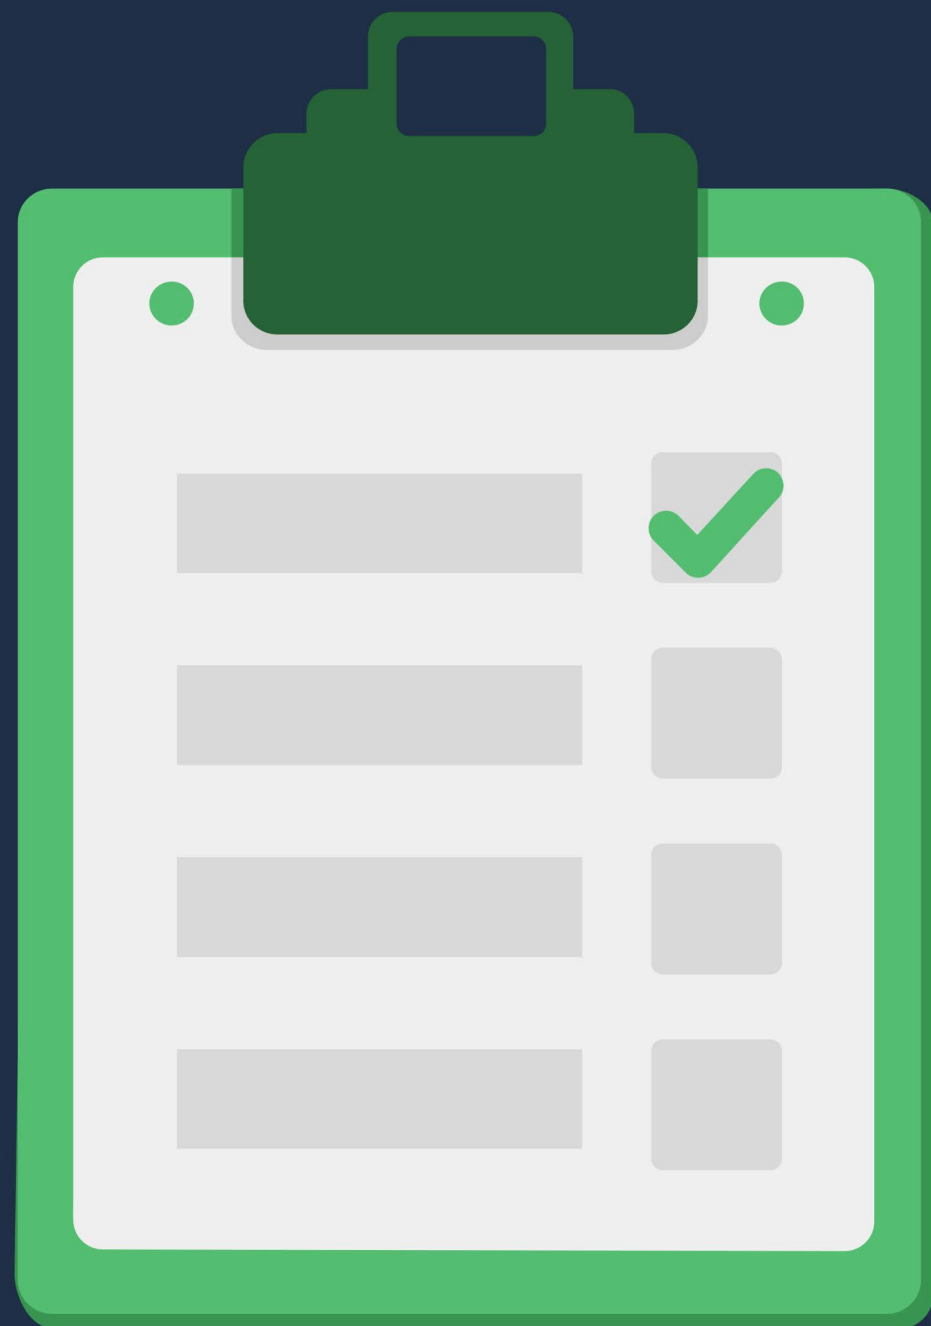

We love and know how to work with high-load systems with a huge data bulk.

450K+

HOURS OF CODE WRITING

We develop and support software 24/7.

KEY COMPETENCIES AND SKILLS

1

LOGIC

High reliability and speed response, easy scaling, easiness of support and updates. We create logically well-considered systems that have good architecture.

2

TECHNOLOGIES

In the commercial software development we use up-to-date technologies – Machine Learning, Data Science, Data Mining, Blockchain, Big Data, Predictive Analytics, NoSQL DataBase.

3

ANALYTICS

Professional research of business processes, flexible solutions of customers' problems, usage of analytical tools. We create effective, user-friendly and trustworthy software that allows customers to promote their business to a higher level.

4

MATHEMATICS

Cryptography, intelligent automation of business processes, data analyses, pattern identification, mathematical modelling. We keep your data 100% secured, you process your data 100% effectively.

5

INTEGRATION

Data integration, software integration, business processes integration and automation. We are experts in combining separate parts into one whole with the subsequent data processing and access control for different departments workers.

EXPERTISE: BUSINESS SOLUTIONS

MORE THAN 15 PROJECTS OF FRONT-MIDDLE-BACK AUTOMATION

We work with average and big business tasks at different levels of business system functioning.

COMPLEX BUSINESS AUTOMATION

We create and put into action ERP/CRM and /ECM systems for various businesses including finances, logistics and transport, government and tourism, etc.

ACCESS CONTROL SYSTEMS AND SYSTEMS OF WORKING TIME RECORDING

We develop systems that use biometric and electronic control.

INTEGRATION WITH EXTERNAL SYSTEMS

We provide integration with various external systems via different protocols.

X-PLATFORMING

We create systems that work equally well with various platforms.

QUICK COST RECOVERY OF ROI

We provide fast cost recovery due to a process efficiency increase in three or more times.

DETAILED BUSINESS ANALYSIS AND PROJECT EVALUATION

We study and analyze client's needs, help find and realize the most effective solution.

EXPERTISE: WEB SOLUTIONS

MORE THAN 30 REALIZED WEB PROJECTS

We create corporate sites as well as complicated internet portals that have an in-house billing system.

ALL-TIME HIGH QUALITY

The created quality control system (that includes test reviews) allowed us to put into life a project which won a prestigious award "Golden Site".

HIGH-LOAD SYSTEMS

We develop software architecture optimized for high-load functioning and good for vertical and horizontal scaling.

PROJECTS FOR DIFFERENT BUSINESSES

We know how to make projects for electronic commerce, education, tourism, government, logistics, finance, etc.

EXPERTISE: MOBILE SOLUTIONS

01

MOBILE APPLICATIONS

We create applications of any complexity and purpose starting from a directory and financial calculations and ending with mobile services of large media projects.

02

HIGH QUALITY DEVELOPMENT

We follow in-house standards of initial code writing and Google Guide demands. We adhere to high development culture.

03

UX/UI

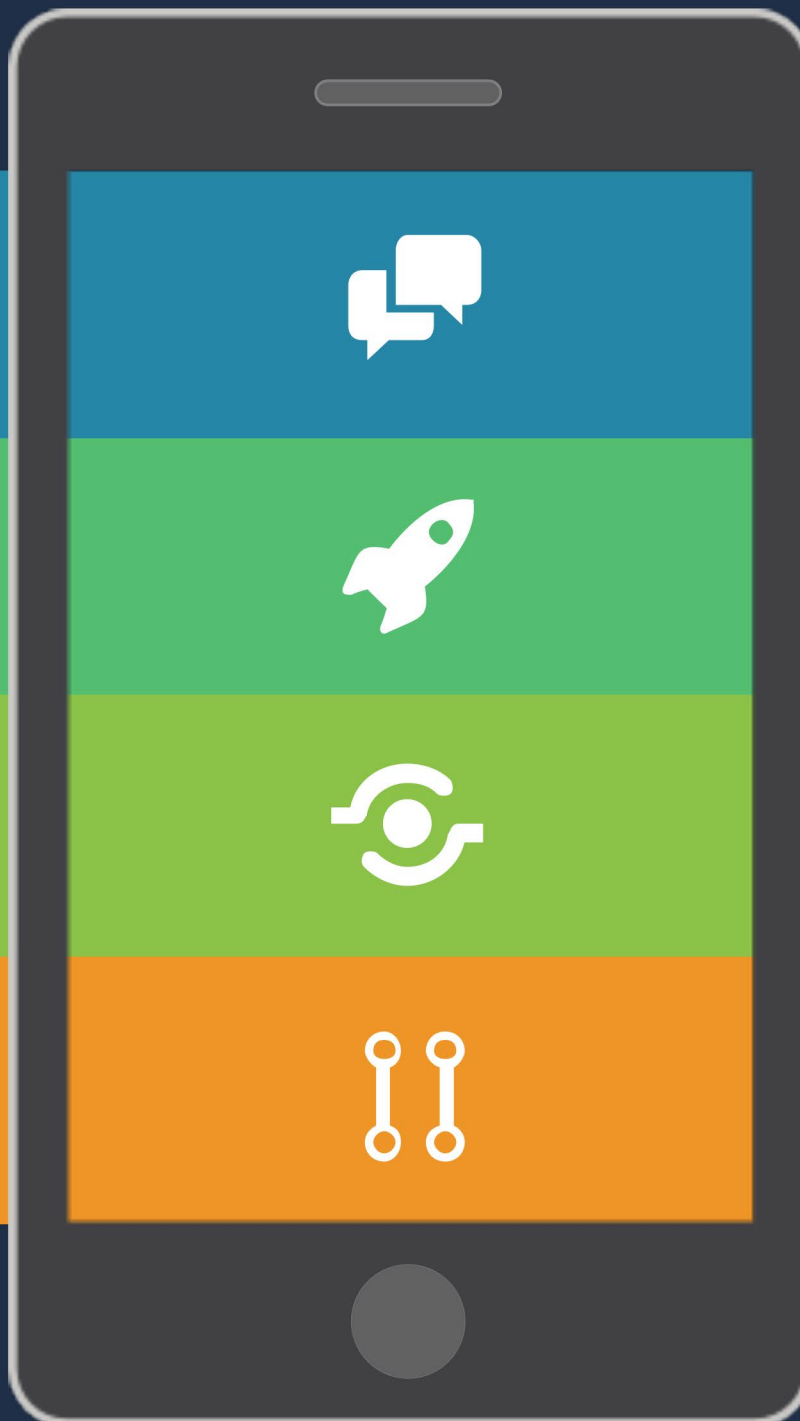

We design interfaces, create logotypes and user stories, help with logic and architecture of applications.

04

VARIOUS PLATFORMS

We created applications for such systems as Android, iOS, and Windows Mobile.

3 STEPS TO START WORKING RELATIONSHIP WITH US

TECHNOLOGIES AND EXPERTISE

BUSINESS EXPERTISE

- Audit and reengineering of business processes
- Software audit
- IT consulting
- Start-up launching
- Crisis solutions
- Opening of the 'key-ready' development centers
- Specialists training

TECHNICAL EXPERTISE

- Software development
- Software testing
- Software implementation
- Software support and maintenance
- Software migration and integration
- Designing of software architecture
- Designing of software interface
- Project rescue

INNOVATION EXPERTISE

- Blockchain
- Machine Learning
- Data Science
- Data Mining
- Predictive Analytics
- Distributed data base
- Big Data
- Data visualization
- Artificial intelligence
- Processing of multimedia data: image and speech recognition
- Virtual reality (VR)
- Augmented reality (AR)
- Chat bots and virtual helpers

BUSINESS EXPERTISE

- Solutions for commerce and logistic companies
- Development of geoinformation systems
- Financial systems (FinTech)
- Electronic commerce

CYBER-SAFETY

- Info safety audit
- Creation of access control systems
- Development and implementation of info protection solutions
- Cryptology and encryption

THE WORD FROM TALENTSY

The most important thing for me is business reputation, that is why I demand to adhere to two principles:

1. To always do high quality work. We are responsible for the result of the performed work. Inter alia, our clients get a 12-month guarantee according to which we will correct any mistakes free.
2. To always honor an agreement. We carry out all the taken responsibilities thoroughly and follow the principles of information confidentiality and author's rights of our partners.

FOUNDER AND CEO
